Who We Are

At **Wichita Habitat for Humanity (WHFH)**, we believe everyone deserves a decent life, filled with strength, stability, and the power to shape their own future through homeownership. This belief is what unites us, as we work toward a shared vision of where safe and affordable housing is a reality for all. **Our Women Build empowers women by providing them with the tools and support to build homes and brighter futures for themselves and their families.**

Since becoming an official Habitat for Humanity affiliate in October 1986, Wichita Habitat for Humanity has partnered with over 200 families. These partnerships involve community members working alongside volunteers to build their own homes. Homeowners then purchase these homes through an affordable mortgage, laying the groundwork for a more secure and prosperous future for themselves and their loved ones. Through shelter, we empower families, providing them the resources to build healthy, successful lives.

Why Women Build?

By supporting Women Build, you not only contribute to the construction of essential affordable housing, but also play a key role in fostering resilient and thriving neighborhoods that will endure for generations. Your involvement in Women Build positions you as a leader addressing the crucial issues of affordable housing and equity building in the inclusive and sustainable growth in the Sedgwick County.

Participants in Women Build engage in a collaborative environment, guided by construction professionals, and work alongside fellow volunteers and future Habitat homeowners. This program actively recruits and trains women to contribute to the creation and maintenance of decent, healthy, and affordable homes within their community. It serves as a unique platform for women to learn new skills, gain confidence, and empower one another.
